All legal advertisements will be charged at the rate of \$2.00 per square for the first insertion. There will be no exception to this rate. No affidavit of publication will be made until the advertisement is paid for.

Entered at the postoffice in Tonopah as second class matter.

MAN OF THE PEOPLE

THE nomination for the vacancy on the bench of the supreme court of the Honorable T. F. Moran, better and favorably known to his host of admirers as "Barney," has already met with the acclamation of voters regardless of party. The name of Moran in this case is one to conjure with wherever integrity, honesty and judicial uprightness is sought, and there is but little room for doubting the result in the November election. It is a case of the office seeking the man and not the man seeking the office. Judge Moran comes from the people and of the people and has always stood with the people in every uplift movement. Regardless of party he stands as a leader and an earnest advocate of those principles laid down by the statutes. He has never been taxed with unrighteous use of his judicial power, but, on the other hand, has been commended for his eminent fairness in adjudicating cases at bar strictly on the legal merits and without any regard to whatever personal interest the court might have had. Under the circumstances it is safe to venture the prediction that Judge Moran will lead the state ticket and deservedly so. Beginning life as a railroad man, he aspired to a higher station than twisting brakes, and during his spare time devoted himself to the study of law. He was looking far into the future, but in doing so he did not neglect the interests of his employers or the possibility of advancement in the calling where his lines had been cast. While diligently working up in the railroad business from brakeman to station agent and train dispatcher he applied himself sedulously to the law, which he absorbed with a master mind directed by some of the best known intellects in Nevada, for young Moran was an earnest student, who never tired of sitting at the feet of wisdom and absorbing knowledge. In the early days of Tonopah, Moran was agent at Hawthorne, and while there became acquainted with the leading pioneers of the southern mining districts, to whom he endeared himself by unfailing courtesy.

During his incumbency of the district court in Washoe county, Judge Moran has been held in the highest esteem by every man, woman and child, and was elected for two successive terms with majorities ahead of the ticket. His success can be traced to the confidence of the people and his strict interpretation of the law as a jurist without regard to sentiment or personal friendships. His decisions have always been in accordance with the code, and the supreme court to which he aspires almost invariably sustained his rulings. As the candidate said in his speech of acceptance, he has frequently had to render decisions against his dearest friends and some times in favor of his most bitter enemies, but he did so with a clear conscience, satisfied that he was doing right and acquitting himself honorably in his judicial capacity. That Justice Moran will continue to act accordingly is beyond peradventure. Moran stands by his record, which is all the eulogy any man can ask. Betting in Washoe county is 3 to 1 without any takers at these odds. Judge Moran is a jurist, of the people, for the people and with the people whenever their rights are at stake, and no voter can make a mistake by casting his ballot for the popular Reno man.

PORK IN NEVADA

IN a desperate effort to overcome the popularity of the Republican candidate for the United States Senate, the administration is bidding desperately for support of the scattered vote and to offset the antagonism of the new woman vote which has aligned itself with the Hughes ticket. That the precepts of the administration may be given wide circulation it has been ordained that the Internal Revenue department constitute itself a machine for drumming up votes for Wilson. Notwithstanding the abolition of the principal features of the stamp tax, and thus reducing the work of the department over 50 per cent, the number of employees in Nevada has been increased to an extent that is without any warrant. Not satisfied with raising the Reno office by enlarging the duties of the incumbent, which is a perfectly legitimate measure, the powers at Washington have ordered the appointment of deputies for almost every town in the state. Heretofore the onerous duties have devolved on the chief deputy at Reno and an assistant whose province was looking after the southern country. This was natural and, with the necessity for checking the stamp imposts, the presence of two officers was not extraordinary. However, with the elevation of the Reno office to a stamp distributing center, deputies have been provided for Carson City, Winnemucca, Lovelock, Elko and minor places where the duties of deputies would leave ample time for political manipulation. This is a sample of the economy of which the administration boasts and one that is nothing more than a deliberate attempt on the part of the federal authorities to bribe voters. It is on a parity with the order of the Secretary of the Interior who from the moment he assumed office instructed the land office officials that all advertising must be in papers friendly to the administration. Wilson sees the importance of carrying Nevada, as the Maine election will leave the Democrats shy of senators and congressmen to harry the Hughes administration during the next four years, and no pains will be spared in trying to make votes.

TURNING THE TABLES

JAPAN has been sitting quietly by watching developments in the Mexican situation with an intensity that gave rise to frequent reports that the Nipponese government had ulterior designs on the Pacific coast. The real truth begins to leak out through disturbances in Chinese Mongolia, where Japan has sent an armed force with instructions to hold the territory against all comers. When Washington awoke to the fact that Japan was trespassing on the soil of a friendly government in a manner that jeopardized treaty rights granted the United States, as the most favored nation, and

demanding an explanation, the wily Japanese came back with a knockout punch. The state department of Japan denied that it was engaged in any land grabbing project, but, on the contrary, was conducting itself with due regard to international prerogatives after the style set forth by the Wilson administration in Mexico. The statement goes on to say that the Japanese troops are simply policing Mongolia and repressing banditry. Isn't that real cunning!

NAVY DEPARTMENT REPORTS PROGRESS

(By Associated Press.) WASHINGTON, Sept. 13.—A statement by the Navy department regarding the progress of construction on naval vessels now building shows that on August 1 the dreadnaught Arizona was 98.8 per cent completed; the New Mexico, 43.5 per cent; the Mississippi, 53.3 per cent; the Idaho, 63.4 per cent, and the California, 1.7 per cent. Of 32 submarines for which contracts have been let, eight were over 80 per cent completed on Sept. 1 and seven more between 60 and 80 per cent finished.

THE MONEY MAKERS

Owning a block of mining stock. To the uninitiated Means no one home within the dome Where intellect is created. Just why it's so I hardly know. But I have heard repeated That mining schemes are wily dreams— Air bubbles, super heated. When sharpers thrive, and so derive A bank account unlawful, They seek the fools to be their tools, And put it over awful. It's my surmise, 'till all are wise The sharpers won't be grieving, But everywhere, will do their share Of plain and fancy thieving.

Now as to facts, I wouldn't tax Your mind with figures tiring, But in the end, the dividend Is what we're all desiring. And if perchance you ever glance Where mining stocks are listed, You'll recognize, with some surprise, You've been a bit close-fisted.

Those figures that I hinted at Were dividends in mining, For to July the year gone by In profits has been shining. You multiply a million by At least one hundred fifty And you will say the miners pay Disbursements truly nifty. —Frank Adams Mitchell, in Mining and Engineering World.

ASSESSMENT NOTICE

UMATILLA TONOPAH MINING COMPANY Location of Principal Place of Business, and Location of Works, Tonopah Nye County, Nevada. Notice is hereby given that at a meeting of the Board of Directors held on the 17th day of August, 1916 an assessment (No. 3) of one cent (1%) per share was levied upon the capital stock of the corporation, payable immediately in United States gold coin, to the Secretary at the Office of the Company, Room 265, Russ Building, San Francisco, California. Any stock upon which this assessment shall remain unpaid on the 15th day of September, 1916, will be sold at public auction, and unless payment is made before, will be sold on Tuesday, the 24th day of October, 1916, to pay the delinquent assessment, together with the cost of advertising and expenses of sale. By order of the Board of Directors, CHARLES D. JOLLEY, Secretary. Office, Room 265, Russ Building, San Francisco, California. A19-514d

CALUMET BAKING POWDER

Wholesome Clean Dependable

Wholesome because it contains only such ingredients as have been officially approved by the United States authorities.

Clean because it is manufactured in the most sanitary baking powder plant in the world, equipped with specially designed machinery to prevent exposure and contamination. It and its materials are untouched by human hand from the start to the finish in the sealed can.

Dependable because every possible precaution known to Baking Powder scientists—the combined knowledge of a staff of Baking Powder experts—25 years of practical experience in the manufacture of Baking Powder—is used in our efforts to make its keeping qualities perfect.

Dependable because Calumet is the Baking Powder that contains a small amount of dried white of egg—the ingredient that makes possible the "Water Glass Test." This test is a simple but important and positive method that enables you or anyone to easily prove that Calumet has preserved its remarkable leavening power.

Our salesmen frequently test the Calumet Baking Powder they find on the grocers' shelves to make sure that it is up to the Calumet standard. This makes sure that it reaches you in the same perfect condition as it leaves the factory.

The test is not a comparative test of the strength of different kinds of Baking Powders. The "Water Glass Test" does not show the strength of a Baking Powder that does not contain white of egg. It does, however, show the superiority of Calumet in other respects.

"The Water Glass Test" furnishes a guarantee of reliability. It is Baking Powder Insurance.

Let us send you free a "Big Story in a Little Book," which describes the Water Glass Test.
